# Electricity Facts Label (EFL)
## U.S. Retailers LLC dba Discount Power
## Discount Nights 24
## AEP Texas North service area
## Date: 10/04/2026

***Electricity price***

| Average monthly use: | 500 kWh | 1000 kWh | 2000 kWh |
|---|---|---|---|
| Average price per kWh: | 16.0¢ | 15.7¢ | 15.5¢ |

The price you pay each month consists of the Base Charge, Energy Charge and TDSP Pass-Through Charges in effect for your monthly billing cycle. Average price calculation is based on usage profile over 12 months of 45% of consumption at nighttime as defined below*.

| | | |
|---|---|---|
| Base Charge: | $0.00 | per billing cycle |
| Daytime Energy Charge: | 10.7128¢ | per kWh |
| Nighttime Energy Charge: | 8.7128¢ | per kWh |
| *AEP Texas North Delivery Charges: | $3.24 per billing cycle and 5.5751¢ per kWh | |

AEP Texas North Delivery Charges include all recurring charges from AEP-Texas North and will be passed through to the customer as billed from TSDP without mark-up and may include an Income Tax Refund Rider (ITR).

For updated TDSP Delivery Charge information,please visit our website at www.discountpowertx.com/TDSPcharges.

The ITR refund amount varies based on usage. Your Transmission and Distribution Service Provider (TDSP) is AEP-Texas North.

*Nighttime Energy Charge applies to usage from 8:00 PM to 8:00 AM every day.

Your average price per kWh each month is determined by using the energy charge above and the predetermined formula.

Price per kWh = (Base Charge + (Monthly billed daytime kWh usage x Daytime Energy Charge) + (Monthly billed nighttime kWh usage x Nighttime Energy Charge) + (AEP Texas North Delivery Charges))/ Monthly billed kWh usage

This price disclosure is an example based on average service prices - your average price for electricity service will vary according to your usage.

In the event Discount Power receives incomplete interval data from your Transmission and Distribution Service Provider (TDSP), Discount Power may estimate your usage for missing periods based on historical data from your meter. A multi-day average of recent interval data will be used to estimate usage for missing intervals and the estimates will be used to calculate your monthly bill.

When there is a difference between the monthly meter read and the monthly total of the actual or estimated interval data, the usage difference will be allocated based on your usage profile for that billing period. If less than 50% of the interval data is received from the TDSP or is estimated by Discount Power, the usage difference between the monthly meter read and monthly total of the actual or estimated interval data will be applied as 55% at the Daytime Energy Charge and 45% at the Nighttime Energy Charge.

***Other Key Terms and questions***

*See Terms of Service statement for a full listing of fees, deposit policy, and other terms.*

| | | |
|---|---|---|
| ***Disclosure Chart*** | Type of Product | Fixed Rate |
| | Contract Term | 24 months |
| | Do I have a termination fee or any fees associated with terminating service? | Yes. $295. Applies through the end of the contract term. This fee does not apply if the customer moves, and provides a forwarding address and other evidence that may be requested to verify that the customer moved. |
| | Can my price change during the contract period? | Yes |
| | If my price can change, how will it change and by how much? | Your price may change only to reflect actual changes in TDSP charges, changes to the Electric Reliability Council of Texas or Texas Regional Entity administrative fees charged to loads, or changes resulting from federal, state or local laws or regulatory actions that impose new or modified fees or costs on us that are beyond our control |
| | What other fees may I be charged? | For other non-recurring fees which may be charged that are not included in the average price above, please see the following sections of your Terms of Service: Pricing and Billing, Payment and Payment Arrangements. |
| | Is this a pre-pay or pay in advance product? | No |
| | Does REP purchase excess distributed renewable generation? | Yes; customers enrolled on a renewable energy sell back product that meet the eligibility requirements will receive credits for excess distributed renewable generation.Renewable energy sell back product availability is subject to change at Discount Power's discretion. |
| | Renewable Content | This product is 22% renewable. |
| | What is the statewide average for renewable content? | The statewide average for renewable content is 37%. |
